

From Geneva to Greece and Beyond

Building Bridges 2026 | Geneva, 6–8 October

HIIN joins [Building Bridges 2026](#), a global institution in impact investing, as a **Networking Partner**, connecting Greece and the wider region with the global sustainable finance community. Our Chairman, **Kostis Tselenis**, will contribute to the [High-Level Plenary](#), bringing perspectives from the region into the international discussion on capital mobilisation in resilient food systems.

Greece's National Platform for Impact Investing

HIIN is **Greece's official National Platform for Impact Investing and National Partner of [GSG Impact](#)**, the largest impact network with a coalition of more than 50 impact economies. Our role is to strengthen the national impact economy while increasingly connecting **Greece, the Mediterranean and Southeastern Europe** with global capital, expertise, knowledge and partnerships. HIIN is the neutral convener bringing together foundations, family offices, investors, ministries, universities and impact ventures, while strengthening Greece's impact economy and international alignment.

Building the Evidence Base

The [2024 Hellenic Impact Report](#) created a first coordinated national picture of Greece's impact investing ecosystem. We are now preparing the **2026 Hellenic Impact Mapping**, expanding our understanding of impact investors, organisations, ventures, capital flows and emerging opportunities. **Better intelligence. Stronger ecosystems. More informed capital.** The Impact Report is already one of HIIN's central ecosystem-building assets and is offered as a shared knowledge base for local and international investors, enterprises and policymakers.

From Evidence to Policy / Greece as a Global Impact Lab

Impact economies need the right enabling conditions along impact capital. HIIN is proud to be contributing to GSG Impact's **Impact Economy Index** and advancing work on a proposed **Hellenic Impact Law**, alongside the development of a more coherent approach to impact measurement and reporting in Greece. We are launching an initiative to allow Greece to become a place where new impact models are **developed, tested, financed and demonstrated** and successful approaches shared across the Mediterranean, Southeastern Europe and the wider global impact community.

Ideas We Want to Build Together

HIIN is developing a portfolio of initiatives addressing gaps in the Greek and regional impact economy.

Mediterranean Forest & Nature-Based Solutions

Exploring financing models for more resilient landscapes, biodiversity and natural capital.

MSME Access to Finance

Developing new approaches to financing impact-driven small and medium-sized enterprises.

Hellenic Impact Co-Investment

Exploring structures that can connect international and diaspora capital with Greek impact opportunities.

The Blue Economy Impact Notes

Cross-border collaboration to mobilise capital for a curated pipeline of water / blue economy projects across the Med.

Good ideas scale through collaboration / our current research work

HIIN is working currently on international collaborative projects focused on two areas central to the impact economy: **industrial transition and decarbonisation**, and **impact entrepreneurship, investment readiness and impact skills**.

Together with universities, innovation organisations, investors and ecosystem partners across Europe, we are helping connect research, education, entrepreneurship and capital with practical market needs.

Connecting the Region to the World

From **Athens and Delphi to Amsterdam, Monaco, London, Berlin, Brussels, Paris, Zurich, Munich and now Geneva**, HIIN has spent 2026 at international conferences and platforms, engaging investors, foundations, policymakers, fund managers, universities and impact leaders across Europe. Our purpose is to **bring Greece and the wider region into the international impact conversation, build partnerships, transfer knowledge and mobilise greater interest and capital towards Greek and regional opportunities.**

Looking Ahead | [4th HIIC27 Impact Festival Europe 2027](#)

Athens | October 2027 Save the Date!

The next edition of the HIIC will bring together investors, foundations, policymakers, fund managers, entrepreneurs, families and international impact leaders in Athens. We will shortly open calls for **speakers, partners, workshops, the Impact Funds Stage and the Impact Start-up Stage**. The Impact Festival Europe is a meeting point for impact capital.

Build With Us!

The next phase of the impact economy will be built through collaboration. We welcome **foundations, investors, companies, policymakers, universities, researchers, entrepreneurs, experts, volunteers and ecosystem organisations** interested in developing initiatives with us.

Hellenic Impact Investing Network

The National Platform for Impact Investing in Greece

Connecting Greece, the Mediterranean and Southeastern Europe with the global impact community.
